

NEM INSURANCE ENHANCED MOTOR API DOCUMENTATION

This API is a restful API designed to be easy to implement. All data set are sent and expected in JSON format.

END POINT FOR FETCHING VEHICLE TYPES – [GET REQUEST]

<http://460degree.com/nemEinsurance/einsurance/api/get/Motor/vehicleTypes/>

RESPONSE SAMPLE:

RESPONSE

```
[
  {
    "id": "1",
    "vehicle_type": "Private Car",
    "premium": "5000",
    "comp": "1"
  },
  {
    "id": "2",
    "vehicle_type": "Private Omni Buses ",
    "premium": "7500",
    "comp": null
  }...
]
```

When called, this endpoint also provides the premium charged for the type of vehicle being insured

API ENDPOINT FOR LIST OF VEHICLE BRANDS – [GET REQUEST]

<http://460degree.com/nemEinsurance/einsurance/api/get/Motor/carBrands/>

RESPONSES:

SAMPLE SUCCESS RESPONSE

```
{
  "VEHICLEMAKELISTS": [
    {
      "itemdesc": "Explorer",
      "code_to_use": "00006"
    },
    {
      "itemdesc": "BUS",
      "code_to_use": "00007"
    }....
  ]
}
```

Please note that for chosen vehicle brands, the corresponding code is expected in the payload to be sent over and not the item description. The Item description can be used as display indicating the vehicle brand to the user.

API ENDPOINT FOR LIST OF VEHICLE MODEL – [POST REQUEST]

<http://460degree.com/nemEinsurance/einsurance/api/get/Motor/carModels/>

PAYLOAD:

SAMPLE PAYLOAD

```
{
  "vehMake":"00036"
}
```

RESPONSES:

SAMPLE SUCCESS RESPONSE

```
{
  "VEHICLE_MODEL_LISTS": [
    {
      "itemdesc": "COROLLA",
      "code_to_use": "00039"
    },
    {
      "itemdesc": "COROLLA",
      "code_to_use": "00039"
    }
  ]....
}
```

Please note that for chosen vehicle model, the corresponding code is expected in the payload to be sent over and not the item description. The Item description can be used as display indicating the vehicle model to the user.

API ENDPOINT FOR MOTOR THIRD PARTY

<http://460degree.com/nemEinsurance/einsurance/api/post/Enhanced/data/>

EXPECTED PAYLOAD: -(ALL DATA ARE EXPECTED IN JSON FORMAT)

SAMPLE PAYLOAD

```
{
  "username":"brokerUsername",
  "password":"password",
